Administrative Planning Committee

This committee shall consist of at least two major subcommittees which shall interact extensively: the Academic Planning Subcommittee and the Non-Academic Planning Subcommittee. There will be a committee chair that oversees and coordinates the two subcommittees. Other committees may be created as needed.

The Academic Planning Subcommittee shall be responsible for identifying all activities, actions, and functions that are of an academic nature that should be performed, maintained, monitored, or otherwise conducted for which the deans’ offices have responsible charge. Having identified these activities, the subcommittee shall make recommendations regarding which activities currently done by provost, vice provost, department, non-academic department, etc., offices across the campus should be re-assigned to the new deans’ offices and which of those functions should remain where they currently are, which activities currently accomplished in the departments should be re-assigned to the new deans’ offices or remain in the department, which new activities, actions, or functions should be created and what office should be assigned the responsibility for these actions, and what activities and functions currently assigned to these various offices that we currently do but should no longer do (i.e., sunset actions).

The Non-Academic Planning Subcommittee shall be responsible for identifying activities, actions, and functions that are of an non-academic nature that should be performed, maintained, monitored, or otherwise conducted for which the deans’ offices have responsible charge. Having identified these activities, the subcommittee shall make recommendations regarding which activities currently done by provost, vice provost, department, non-academic department, etc., offices across the campus should be re-assigned to the new deans’ offices and which of those functions should remain where they currently are, which activities currently accomplished in the departments should be re-assigned to the new deans’ offices or remain in the department, which new activities, actions, or functions should be created and what office should be assigned the responsibility for these actions, and what activities and functions currently assigned to these various offices that we currently do but should no longer do (i.e., sunset actions). The subcommittee shall also recommend which unit(s) should have responsibility for performing the continuing activities, e.g., deans’ offices, academic units, administrative units, vice chancellor-level units, or other university units. In coordination with the Academic Planning Subcommittee, identify any Campus Policy Memoranda that should be modified to reflect the addition of deans.
Administrative Planning Committee Members

Larry Gragg, Overall Chair of Administrative Planning Committee

Academic Planning Subcommittee

Dave Enke, Chair
Larry Gragg, Co-Chair
Krista Chambers
Jerry Cohen
