**Faculty Bylaws Committee**

The Missouri S&T Faculty Bylaws were modified and changed in 2007 to reflect that the university no longer had deans. This structural change impacted many operational functions but perhaps the most important function that was impacted was the campus’s promotion and tenure (P&T) process. “Discipline Specific Curriculum Committees” were created and all of the step-by-step decision/recommendation points in the P&T process were changed. The faculty bylaws must be revised to reflect the new organizational structure and the new P&T process must be adopted by the Faculty Senate in a timely manner such that faculty members seeking promotion and/or tenure during AY2014-15 will know how to prepare their promotion/tenure dossiers, department chairs and P&T committees will know when to seek external review letters, and other necessary actions to ensure fair and equitable treatment of these important considerations. Changes to the bylaws will require extensive work by the UM General Counsel office and ultimately approval by the University’s Board of Curators.
