Committee Purpose

- To initiate a university-wide, faculty led process for assessment and continuous improvement of student learning outcomes
- To foster an ongoing institutional culture of continuous improvement
- To be a resource and support for university assessment and revision of student learning outcomes

Committee Goals

- Identify and review current program assessment tools and techniques for all academic programs and provide recommendations for improvements to dean, department chairs and program directors
- Develop a campus-wide assessment process, incorporating policies, procedures and assessment tools
- Prompt departments to define, inventory and assess student learning at the department level. Develop shared language for assessment and oversee conduct of department activities related to assessment of learning experiences for undergraduate, graduate, and general education learning outcomes
