CAMPUS COMMITTEE’S NARRATIVE

The Campus Committee shall review and address the contributions and performance of the candidate in the area of teaching. It is expected that the Campus Committee will provide a broader perspective of the dossier based on its broader membership compared to the Department Committee.

Prior to its deliberations, members of the Campus Committee should review the following:

- CRR 310.035 – Non-Tenure Track Faculty
- Missouri S&T Promotion Procedures for Non-Tenure Track Faculty
- Missouri S&T Policy Memorandum No. II-13 – Non-Tenure Track Faculty
- Departmental Policies and Procedures for Promotion

Members of the Campus Committee should also review the instructions and narratives provided in the Department Committee’s Narrative and the Department Chair’s Narrative. The Campus Committee’s narrative should specifically address any differences between their recommendation and those of the Departmental Committee and Department Chair.

In addition to the Campus Committee narrative, the chair of the campus committee should also prepare a brief summary of the vote and rationale for the vote for use by the Provost in notifying the candidate of the committee’s recommendation.
