LETTERS OF SUPPORT

Letters of support from former advisors, collaborators, friends, and colleagues may be included in this section. The methods and conditions under which the letters of support were received shall be noted.

A page should be included in this section indicating the conditions under which letters of support were received, i.e., whether they were solicited by an independent third party, solicited by the candidate, or received unsolicited. A comment on the tradition of the department or the unit in this regard is appropriate. All letters of support must indicate the title of the letter writer or the relationship of the letter writer to the candidate, i.e., colleague, faculty member, administrator, student, former student, etc.
